

Missouri Manufactured Housing Association

The Missouri Manufactured Housing Association, established in 1963 by a group of industry members sharing similar concerns and interests, is the only professional statewide organization in Missouri dedicated to the interests of the manufactured and modular housing industry. Our sole purpose is to protect and enhance your business.

MMHA belongs to its members, it is **your association**. It is governed by its seventeen member Board of Directors — elected by you, powered by you, and serving your needs.

A vital addition to the activity of this group, however, is that provided by the membership. Member firms are large and small, manufacturers, retailers, builders, developers, service organizations, lenders, manufactured housing communities, suppliers, installers, contractors and transporters. All receive a constant flow of information to keep them up-to-date on trends, laws, proposed regulations, legal decisions, and day-to-day happenings that you need to effectively manage your business.

A full-time staff in Jefferson City insures that the voice of manufactured and modular housing is heard in State government. Publications and media contacts keep the public and the industry informed of issues concerning manufactured and modular housing in Missouri.

Can you afford NOT to be a member of MMHA?

MMHA's cost of doing battle with those whose goals are to decrease the value of your investment goes up every year. We need your membership and support.

Just think where you would be if you did not invest your dues dollars in MMHA. The Association has:

- PASSED legislation creating a 40% sales tax reduction on the sale of new manufactured homes
- PASSED legislation creating a 40% sales/use tax reduction on the sale of new modular homes
- PASSED legislation obtaining an exemption from sales/use tax on all used manufactured homes
- PASSED legislation reclassifying manufactured housing communities as "residential property," amounting to a 40% reduction in annual taxes paid by the community owner
- PASSED legislation creating a step-by-step process streamlining the law governing the disposition of abandoned manufactured homes
- PASSED legislation allowing title conversion of manufactured homes to real property and reconversion

The Association continues to push back on excessive regulation from both the State and Federal government, while pursuing legislation that will positively impact the manufactured and modular housing industry. The success of your business is our primary concern. Please join all the dedicated members of MMHA to insure that we protect and build our future together.
